Professional Summary

Aspiring Machine Learning Engineer and Data Analyst with a Computer Science background and hands-on experience in data analytics internships and applied ML projects. Proficient in Python, SQL, Pandas, NumPy, Scikit-learn, and PyTorch, with practical skills in data cleaning, EDA, feature engineering, and Power BI dashboarding. Built a multi-modal deep learning system for misinformation detection using NLP and computer vision.

Education

Hindustan College of Technology <i>Bachelor of Engineering in Computer Science and Engineering (CGPA: 7.64/10)</i>	2023–2027 Salem, Tamil Nadu
St Paul's Higher Secondary School <i>Higher Secondary Education (Maths & Biology) – 65%</i>	2023 Salem, Tamil Nadu
St Paul's Higher Secondary School <i>Secondary Education (SSLC)</i>	2021 Salem, Tamil Nadu

Technical Skills

Programming Languages	Python, SQL, Java (OOP, DSA)
Data Libraries	Pandas, NumPy
Analytics & Visualization	Power BI (DAX), Excel (Pivot Tables, VLOOKUP), Statistical Analysis
Tools	Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Eclipse

Professional Experience

Pirai Infotech Pvt Ltd <i>Data Analysis Intern</i>	Jun 2026 – Jul 2026 Pollachi, Tamil Nadu
- Engineered data cleaning and preprocessing workflows using Python and SQL, increasing reporting accuracy and dataset usability. - Developed interactive Power BI dashboards to visualize operational KPIs, enabling stakeholders to evaluate performance metrics in real time.	
Techforge <i>Data Analyst Intern</i>	Jan 2026 – Feb 2026 Salem, Tamil Nadu
- Cleaned, queried, and analyzed complex business datasets using SQL to identify operational patterns and insights. - Designed and deployed multi-page dashboards using Power BI to streamline executive reporting.	

Projects

Fake News and Deepfake Detection System	<i>Python, Streamlit, Scikit-learn, PyTorch, NLP</i>
- Built a multi-module Streamlit app combining a Scikit-learn text classifier for fake news detection and a PyTorch ResNet-18 image classifier for deepfake detection. - Integrated Google Translate for multilingual input and GNews API cross-verification to produce a combined credibility verdict.	
MS Agencies Billing App	<i>HTML, CSS, JavaScript, PWA</i>
- Developed an offline-first, installable billing PWA with inventory management, bill generation, and discount calculation. - Implemented saved-bill history with localStorage persistence, JSON backup/restore, and a service worker for offline use.	

DECLARATION
